

Dear FCC, my name is Terry Tuschen and I am opposed to BPL and in the absense of a complete prohibition, I ask the FCC to institute safeguards to protect the viability of shortwave broadcast reception. I am not a ham operator but I know they too have many concerns. Shortwave listening is very important to me and I expect my government to protect my airwaves so that everyone can use them and benefit from them. There are plenty of outlets and opportunity for Broadband as it is, not to mention to large amount of unused capacity. There is no need for BPL. Thank you.

Terry Tuschen
